SPEAKING OF PICTURES . . .

8:00 A. M.

THREE SCHOOL BUSES bring out-of-town students to school and take them home again. This view shows the Roseland bus with a morning load.

LOCKERS are great places for gatherings---Teachers patrolling the halls try to keep too many students from accumulating in any one spot, but students enjoy a few minutes' chat before the day's routine begins.

TEACHERS go to their mailboxes and collect their mail each morning and noon. Miss Carlson (left) and Miss Hanson (right) are reading their mail as are Principal Lundquist (left) and Mr. Shepard.

MISS MARGIT PEDERSEN, the principal's secretary, is besieged with requests for excuse blanks every morning. A systematic worker, Miss Pedersen is well liked, highly respected, quietly obeyed.

THESE ARE TYPICAL SCHOOL SCENES

NOON finds many students eating their lunches in the assembly. An average Willmarite consumes two sandwiches, an apple or banana, and a hunk of cake in about fifteen minutes. There are other things he'd rather do than eat.

CHECKER GAMES, ping pong, shuffleboard, volley ball, all flourish during noon hour. Checker games draw kibitzers who say, "You should have played it this way".

EXTRA-CURRICULAR ACTIVITIES begin after the seventh period. This view shows the *Wilohi* office on press night. These students will work on and on until they're through, be it five or be it nine o'clock.

ALL THINGS come to an end, even the school day. Here two freshmen, James Gustafson and June Eggleston, warmly dressed for the rigors of winter weather, prepare to leave for home.

FOREWORD

CHARACTERISTIC of the age in which we live is speed and its relation to time . . . Every activity of our lives is systematically measured by the tick of the clock . . . Time has become the basic element of our dynamic society . . . People are having less and less time for digesting lengthy periodicals . . . They have demanded the reporting of events to be concise, accurate, and complete . . . In response to this demand, a new field of editing has jumped by leaps and bounds to universal popularity . . . that of Pictorial Journalism . . . the recording of events with actual pictures and small explanatory captions . . . Thus, the staff of the 1939 WIHISEAN is endeavoring to present the events of our times in a style whose trend is toward the future . . . And so we, the seniors, present on the succeeding pages a cross-section of our school life . . . Golden Memories to mellow and brighten with age . . . . .

Yours truly,
James Peterson

WIHISEAN'S PHOTOGRAPHER

Robert Hultgren, the junior who took most of the pictures in this book, first became interested in photography when he joined the Camera Kraft Club in his sophomore year. Winner in last year's C.K.C. contest, Robert was offered the assignment of the 1939 Wihisean pictures. Working under a severe handicap when the old Central Building was demolished and all the photographic equipment moved from place to place, Robert met his most serious problem when he took the individual pictures of the teachers. During this period of readjustment he had inadequate lighting equipment, a circumstance, which under the conditions, could not be helped. For his shots on school life Bob used a Recomar "33".

THIRTY-NINERS are energetic, alert. Most of them are "in" things: chorus, clubs, orchestra, and athletics. They prefer attractive, but serviceable clothes. Favorite hairdresses among the girls are off-the-ears, upswing variations. This picture shows a group coming from a WIHISEAN meeting. Left to right, they are: Arthur Eide, Mary Carlson, Louise Neitzel, Oral Langager, Betty Michels, Marcella Van Buren, Alloys Branton, Jr., Duane Lunde, Dorothy Jacobson, Doris Morman, Bernyce Sletten, Lois Lovander, Dorothy Berg, Evelyn Kallevig, Dolly Karr, Donald Neslund, Allyn Cappelen, Marjorie Mattson, and Elizabeth Gable.

THE 1935 FRESHMEN GROW UP

LIFE BEGAN for the seniors in 1921 or 1922. They first entered school in '27 or '28. Some were introduced to their ABC's in the three Willmar grade schools; others opened their primers in schools in Spicer, Kandiyohi, Roseland, or in one of the out-lying rural schools.

BY 1935 they were freshmen in Willmar High. For many that called for a complete change in their lives: long bus rides to and from school; adjusting to four or five teachers instead of one; participation in school activities and at the same time "keeping up to grade".

AS SOPHOMORES in 1936 they were more knowing. They had become acclimated to the routine of high school life. Extra curricular activities began to interest them. They became a contesting factor in interclass competition.

BY 1937 they were juniors, seriously rivaling the seniors of the year for school supremacy. The 1937 junior carnival "Amateur Night" was their great financial triumph. That success made it possible for them to fete the seniors at the prom, the highlight of all school social functions.

SEPTEMBER 1938 found them seniors. The photographs which are given here show the physical growth and personality development of the thirty-niners.

AS SOPHOMORES the thirty-niners were already well-poised, and beginning to be fashion-conscious. This picture, taken at a "hen" party, includes: Marjorie Mattson, Muriel Klint, Dorothy Berg, Doris Klint, Lorraine Johnson, Lorraine Larson, Mary Carlson, Doris Smith, Bernyce Sletten, Alice Mae Adams, Marilyn Lawson, Lois Wolfe, and Alice Johnson.

THE SENIORS HAVE WEATHERED

AS CHILDREN the seniors had the usual carefree existence characteristic of American childhood. Four-year-old Art Eide (upper left) appears to have been shy, well-behaved. Among the promising young actors in a Lincoln School playlet were Everett Anderson, Marcella Van Buren, Alice Adams, and Bernyce Sletten. The picture (upper center) was taken after the show was over.

Garfield sixth graders during the spring of 1932, looked very much like . . . sixth graders. Today they are seniors Mary Carlson, Marjorie Shamp, Marcella Van Buren, Marie Johnson, Deloris Wacker, Irene Strommen. Back in 1922 Senior Winifred Ney was just beginning to sit up alone. Both she and her cousin "must have been beautiful babies". Members of the Whittier School in Kandiyohi whom destiny was later to shift to Willmar were Ethel Gundberg, Delores Erickson, Joyce Butler, Harry Anderson, and Lenore Lindgren.

Once today's cagesters were the sixth grade basketball champions from Lincoln School. They are Stanley Nelson, Edmund Nicholson, Mahlon Thunstedt, Aldrich Bloomquist.

AND WON MANY BATTLES

THE AVERAGE STUDENT in Willmar doesn't dominate school activities until he approaches his junior and senior years. Then in a relatively short time things "happen to him".

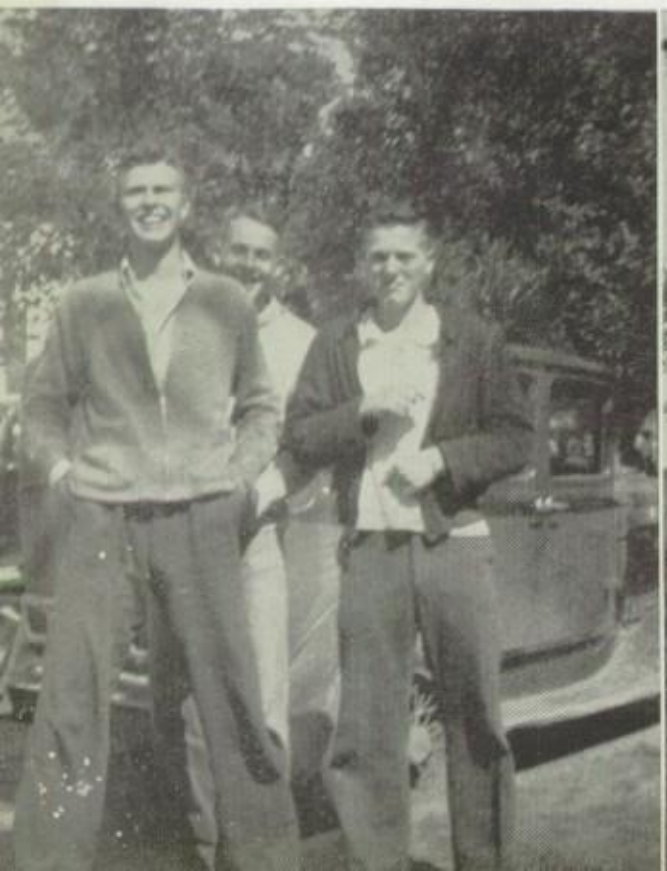
SOCIETY plays a very small part in school life; in reality there is only one important party each year---the junior-senior prom. At the upper right you see Violette Melby, Jean Halvorson, and Dorothy Jacobson, transformed into "prom girls" and ready to attend the school's number one social event.

MOST FRESHMEN girls still retain something of a "little girl" quality. The picture at right center shows Eunice Rusten, Lois Wolfe, and Esther Fostervold as they were back in the long-skirt era of '35.

JUNIORS are definitely "grown up". At the lower right Phyllis Newberg, Doris Morman, and Jean Leffler show you three types of school attire, popular last year.

SENIORS have always liked to experiment. Once Senior Delores Erickson persuaded La Vone Kroona to co-operate in this "When Paw Was Courtin' Maw" travesty. Look at the result. (Lower middle)

"LOOK AT ME. I'm a handsome lad," Melvin Kvam seemed to say as an admirer took his picture. With him are Edmund Nicholson and Kurth Tomervik. When this was taken, all were juniors serving "their public".



AND THEY HAVE

IT PAYS TO BE THE PRESIDENT---or his best girl---for they lead the grand march at the prom. Last year's class president, Aldrich Bloomquist (left) and Betty Lou Pearson are seen with the leaders of the class of '38, Fay Preble and Ralph Pederson. At this, the outstanding social event of '38, the thirty-niners acted as hosts.

HAD A GREAT TIME

AS THIS YEAR comes to a close, the spirit of '39 leaves Willmar High. The present seniors have left a record behind them. They have had a great time. Soon they will become wise and mature members of Willmar's alumni.

Typical mood of seniors leaving school is shown in the group below. The boy with the cocked homburg and open mouth is Franklin Gummer. Advertising Manager Paul Rasmussen is trying to hide behind Marjorie Mattson. Russel Foster looks on and smiles.

Smiling, books in hand, is Marie Larson. In the distance is Pansy Ressler. Elizabeth Gable is peeking from behind Donald Neslund, an outstanding boy in school life as well as in the picture. Man-of-fashion at the extreme right is Donald Bolstad.

WHY EVERYONE "JOINS UP"

HOBBIES rather than vocational pursuits are served by school organizations. Through a miscellany of clubs, Willmar students have an opportunity to "see how they like" participation in musical, forensic, library, radio, aeronautical, and other activities. Most organizations carry on projects that are highly individualized, having a definite carry-over into later life.

JOHN DOE, registering as a student at Willmar High, picks and chooses his extra curricular activities. He may like music, and decide to join the Mixed Chorus, the Boys' Chorus, the Band, and the Orchestra. Or perhaps he chooses only one of them, for it may be that he is also "mechanically minded." Then we may find him selecting the Radio Club, Camera Kraft, or the Airplane Club.

MARY DOE is just as fortunate in having any number of clubs to which she may belong. Interested in womanly crafts, she may become a member of the Home Economics Club. If she "goes in for games", she will join the Girls' Athletic Association. Should library work interest her, she has a good opportunity to test her own liking and aptitude for the work.

NO QUAKER MEETING HOUSE idea dominates the membership of these organizations, for most of them are open to both boys and girls. Outside of the music organizations, which carry a one-fourth credit each year, none of these activities earn school credit for participants. In only one is membership on a rigidly selective basis: the Honor Society. Juniors and seniors are elected into that organization on the basis of their scholarship and leadership. All school organizations are based upon the theory that "busy people are seldom bad people." And we who belong to "clubs" think the theory is sound.

PLAY BALL!

Western Conference Champions

WHILE THIS APPEARS to be a peaceful enough looking group, on the gridiron they are fast-fighting, charging men who know their football. Responding to the patient and expert teaching of Coach "Nip" Teeter, they leave an unbeaten season behind them. Back row, left to right, are: R. Osmundson, A. Ekblad, R. Erickson, C. Anderson, D. Johnson, D. Force, K. Johnson, C. Reamer, B. Elkjer. Middle row are: R. Foster, C. Tolan, E. Davidson, M. Kvam, W. Erickson, W. Buckley, E. Hendrickson, G. Anderson, F. Leffler, E. Samuelson. Front row: left to right are: C. Carlson, D. Langager, Captain-elect Bakken, K. Tomervik, Captain G. Dickson, J. Dickson, H. Majerus, I. Kvam, D. Neunsinger.

A MAN who teaches football because he likes football, a man who teaches boys good football because he likes boys is big, patient, "Never-a-nerve Nip" Teeter. Here he is shown instructing E. Samuelson, D. Langager, and Captain-elect Bakken some fine points on how to punt.

SINCE FOOTBALL is a game for boys who can "take it", slight injuries mean work for Manager Elkjer, Coach Al Lucas, and Captain Glen Dickson. Coach Lucas's services have been invaluable to this year's team.

"Teeter" Johnson
One and Only.

FOOTBALL COMES FIRST

THE "GROUNDWORK" for a championship football team is done on the practice field. The boys "dig in" and do some real work at these practice scrimmages. Coach Teeter is giving a boy some husky, low-voiced instructions as Coach Luther, Mr. Shepard and the rest of the boys look on and listen.

ASSIGNMENTS FOR A NEW PLAY are given out by Assistant Coach Luther to players Kurth Tomervik, Donald Johnson, and Harold Majerus. Mr. Luther, a line coach, is popular with the boys.

BASKETBALL

IT'S IN THE BASKET for Willmar as guardsman Stanley Nelson skillfully sends the ball through the hoop for another two points for Willmar in the midst of a cage battle with West High of Minneapolis.

Willmar's Howard Peterson stands ready to regain possession of the ball in case cagester Nelson's shot had failed to find its mark. Home games like this generally drew 1200 spectators or more.

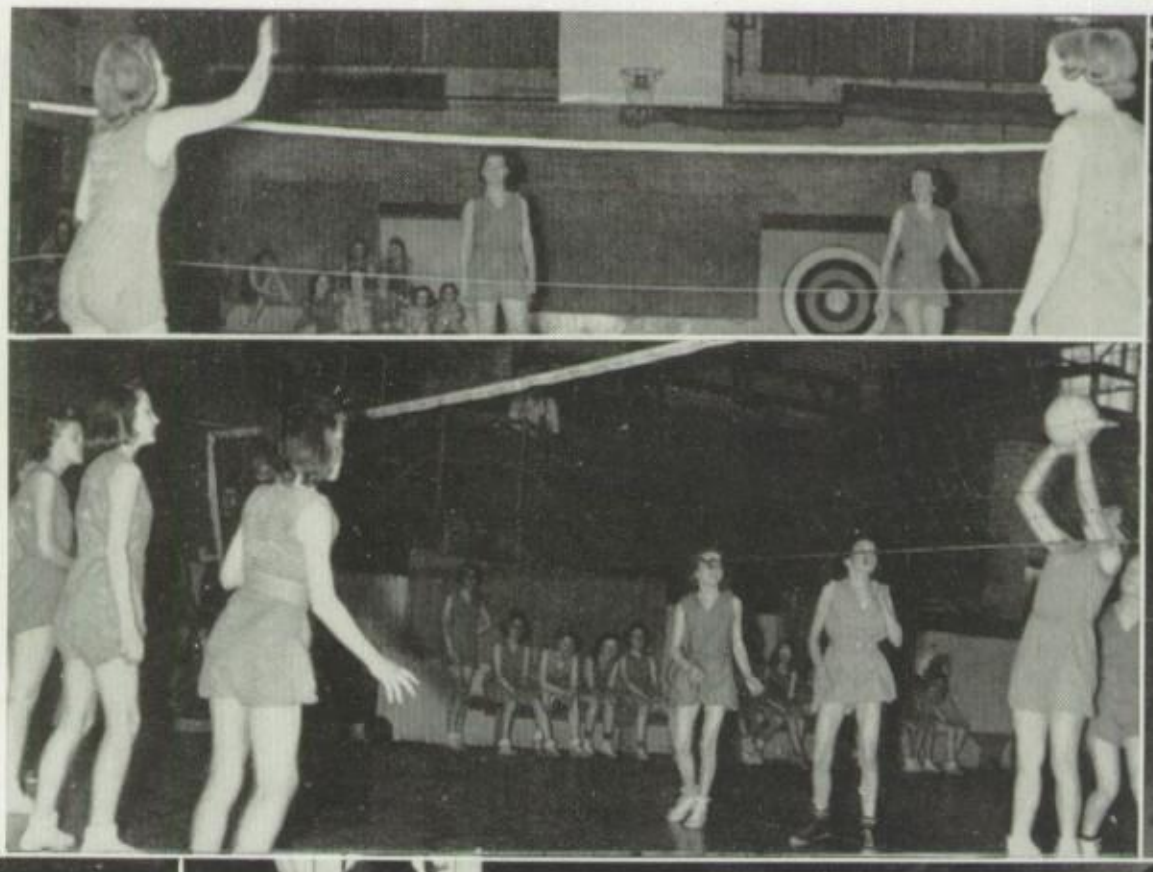
GIRLS GO IN FOR GAMES

MODERN is the word for the Girls' Physical Education Department. Director Hattie A. Rosentreter (pictured below at the left) insists that the greatest emphasis be put on sports that girls can play all through their lives. Here are the Willmar girls playing: Upper right, deck tennis. Second row right, volley ball. Center, top, basketball. Third row, right, shuffleboard. Lower left, "stunts". Lower right, tumbling.



NO END

SEVEN-THIRTY A. M. is an early hour; but not too early for some of these girls to come to school in order to get in extra play time. Pictures here show the wide variety of "things to do": Upper right, pyramid building. Second row, left, apparatus work. Second row, center, badminton. Second row, right, archery. Two pictures at lower left, diamond ball and aerial dart Lower right, rope climbing.

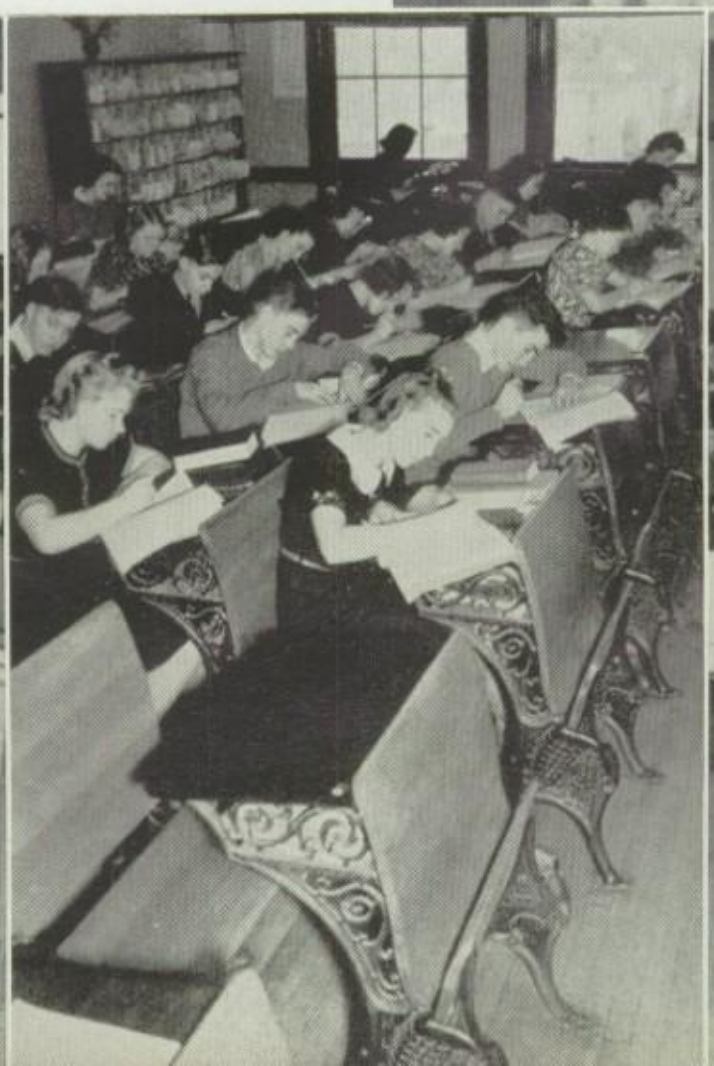
IN THE MEANTIME CLASSES

MOST INDISPENSABLE to school life are classes. Biggest problem of teachers is conducting five classes a day in the most presentable manner possible. Students sit, study, think, and listen. There are a number of varied subjects a student may take, according to his individual interests. A cross-section of classes is shown on the following pages:

Math classes, more than any other, are kept busy figuring things out. The view in the upper left, shows a freshman class. The subject being taught is general math, and the teacher is Mr. Anderson. The second picture shows Miss Carlson holding the Mixed Chorus entranced as she expounds a point on music and ever better music. . In the lower left picture Mr. Engleson, teaching social economics, lectures while an industrious class takes notes. No teacher is present in the picture at the lower center, but this is a view of Miss Richert's junior English class. In the lower right Miss Rasmussen watches as seventh graders improve each shining hour.



AS USUAL

Senior Force ("Admiral" Dewey to some) directs the Willmar Swing Band as it prepares to out-Benny a certain Mr. Goodman. These "swingsters" have been an outstanding success. They were the life of our exchange program; and they played at the Superintendents' banquet held at the Minnesota Union, and at the Willmar-Twin City banquet where the governor of Minnesota and the mayors of Minneapolis and St. Paul were present.

And here's Mr. Teeter in a new role. Forgetting pigskin science he has turned for the time being to surveying his proteges solving the ever-present mysteries of general science. (Will somebody please page the neck-tied "thinker" in the second row?)

"Rich man, poor man, beggarman, thief" . . . To that rhythmical rhyme the seven smart girls at the left are skipping along to health, vigor, and vitality. Pity the poor cameraman who had to keep a few jumps ahead of these energetic girls.

FOR FIVE DAYS A WEEK

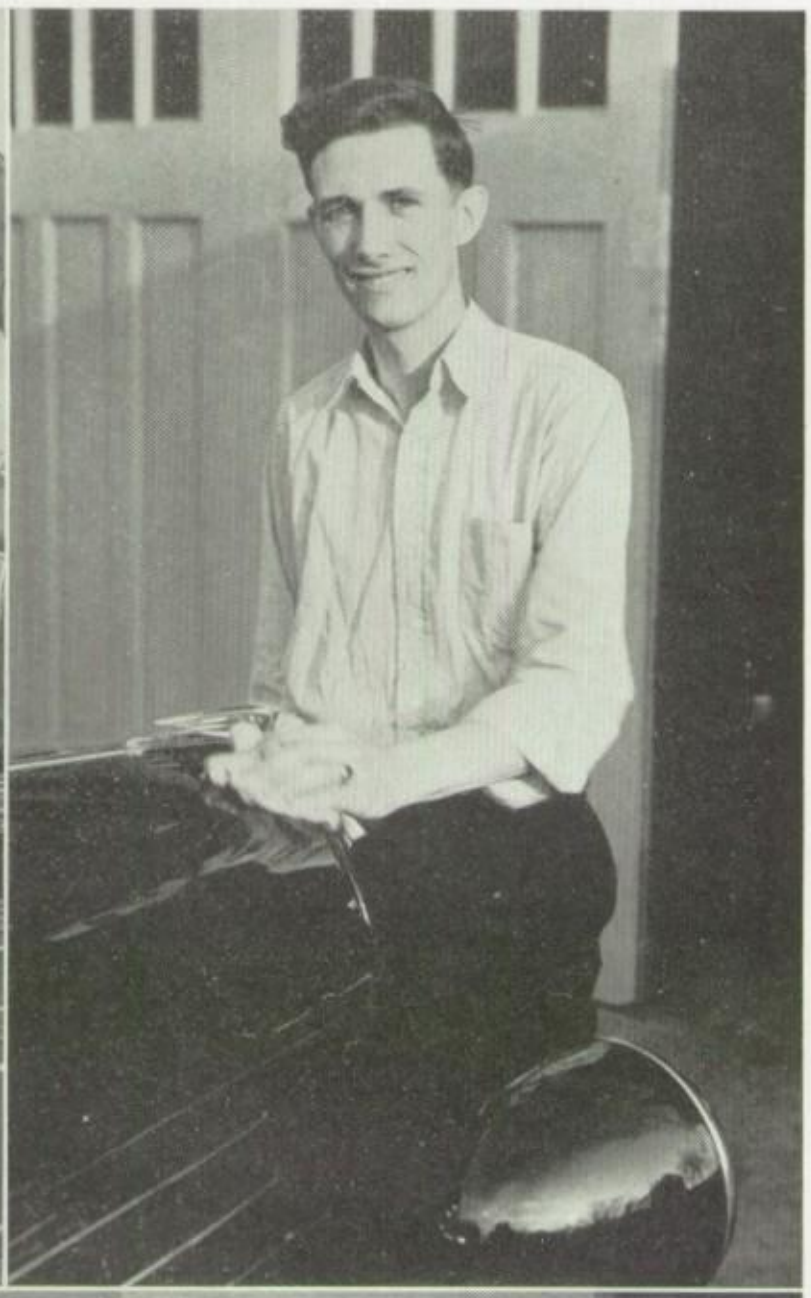
Suave Mr. Jensen boldly faced the camera when our photographer ventured into his social science class. But camera-wise students knew it was their cue not to look up . . . that is, all except Marilyn Barnard . . . and she just couldn't help it.

Is there a girl who doesn't study and work with infinite care on her scrapbook in home problems class? Miss Eggen's class (right) will not let itself be disturbed. Home problems deals largely with home management, budgets, and child care.

Mr. Erickson's industrial training class keeps working under its instructor's eye. No chance to cut up here, unless you cut up wood. These young craftsmen are busy making small handicraft articles, gluing stock, and pounding metal into useful gadgets.

THE WIHISEAN

IN THE SPRING the fancies of the juniors and seniors turn . . . not so lightly . . . to thoughts of the annual junior-senior reception, easily the school's most important social event.



TYPICAL of a few hundred girls during the zero hour of April 28, was Senior Betty Michels (upper left). She is shown before the mirror in her bedroom putting on last minute touches. Like many other boys, Robert Phelps (upper right) had bargained with his dad for the car on condition that he give the family "bus" a thorough cleaning and promise to drive carefully. Senior guests and junior hosts jammed the front lobby of the auditorium just before the party began. (lower left) Main comment of the boys: "Doesn't she look nice tonight?" Main comment of the girls: "Look who she's with!" Safest, most reliable topic: the weather.

GOES TO A PARTY

ON THE EVENING OF APRIL 28, the Willmar auditorium was suddenly transformed into a paradisical desert oasis. Colored lighting effects played upon picturesque desert scenes.

AS THE SOFT-smooth swing music of Don Carruth's orchestra (lower right) filled the auditorium, gentlemen escorted their ladies to the tables where a light buffet supper was served. The scene at the upper right shows the groups as they were seated in the auditorium. Between dances, juniors and seniors returned to their tables, chatted, exchanged dances, and drank punch. For those who did not dance, Chinese checkers, cards, and various games were provided. At ten-thirty the second floor show, supplied by the W.C.C.O. artists' bureau, began, and was followed by dancing which lasted until midnight.

(Continued on page 59)

THE SENIORS' LAST CURTAIN CALL

TRADITIONALLY, every senior class presents a class play. Above, the cast of "The Goose Hangs High" meets for a preliminary reading. Standing, from left to right, are: Donald Johnson, Mary Carlson, Mike Kvam, Ward Hanson, LaVerne Swanson, Franklin Gummer, Paul Rasmussen, Donald Bolstad. Seated: Doris Smith, Doris Mormon, Carolyn Johnson, Donald Neslund, Lois Wolfe, Muriel Nordin, and Miss Tingloff, the director. At the left players Mike Kvam, Doris Morman, Doris Smith, and Donald Johnson get "line readings" from Director Tingloff. Below, to the left, Donald Neslund (standing) rehearses a bit with Paul Rasmussen. At the lower right Miss Tingloff (left) applies makeup to Donald Bolstad, while Marjorie Mattson (standing) powders Muriel Nordin.

LAST WORD

FOR EVERYTHING there is a time and a place . . . We of the Wihisean, feel that this is the time and place to say "thank you." Three of our teachers have acted in an advisory capacity for our book . . . They are Miss Edith M. Johnson, Mr. Clarence E. Funk, and Mr. Ralph E. Shepard . . . The Wihisean is grateful.

PUBLISHING THIS YEARBOOK has been the largest financial enterprise attempted by the students during the school year. A measure of our expenses is carried by the sale of advertising space. The Wihisean advertising staff, consisting of Marjorie Mattson, Betty Michels, Dorothy Berg, Bernyce Sletten, Allyn Cappelen, Arthur Eide, Franklin Gummer, Duane Lunde, Howard Peterson, and Mahlon Thunstedt were courteously received everywhere . . . To its advertising staff the Wihisean is grateful.

WE WANT THIS YEARBOOK to retain its advertising value as long as the memories exist between these two covers . . . For that reason we have carried our "party" tale into the advertising section . . . And so, to you who have helped with this book, the Class of 1939 expresses its appreciation to each and everyone of you.

IN KEEPING with the desert-oasis theme, senior president Donald Johnson talked on pyramids, and their relation to the faculty and to senior class history. Toastmaster Ivan Kvam (seated), junior vice-president, compared his class to desert dwellers soon to move into the senior oasis. Both told pre-Egyptian jokes.

MODERNS like to dance. The junior class was dickering for a good orchestra months before the reception. These dancers, pictured above, were "jitterbugs" during the first part of the evening, preferring less energetic numbers later on. Tired feet carried them home. DOWNFALL OF OLD CENTRAL

Sir:

During the past year, the "Grandaddy" of Willmar Public Schools has been steadily disappearing before the workman's ax. I took this view just as "Old Central" made its last stand. In its place will rise the beautiful new senior high school now under construction.

Yours truly,

LOUISE NEITZEL.

"POP" CONCERT

Sir:

It's performers like these that keep the "Pop" concert popular. No wonder a good time was had by all. From left to right this double quartet is composed of Betty Lou Pearson, Marjorie Mattson, Muriel Nordin, Elsie Rykken, Margaret Tallakson, Marjorie Hedin, Marian Akerson, and Mavis Ayotte. They sounded as well as they look.
